

# HNT-7000

## HUVITZ TONOMETER

The Finest Fully Automatic Non Contact Tonometer

# Fully auto tracking measurement and corneal thickness compensation

## FULL AUTO TRACKING

Only a button needs to be pressed to align, focus and puff both eyes.

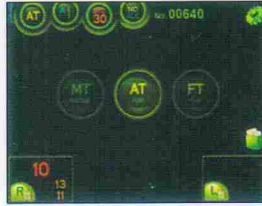

## Motorized chin rest

With just the touch of a button the unit is aligned, focused and puffs both eyes.

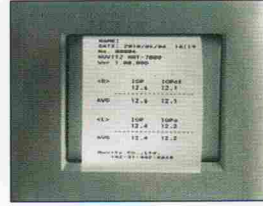

## USER FRIENDLY INTERFACE

User friendly icons provide you with an easier operation environment.

## Integrated printer

The measured data can be easily printed out by the integrated printer.

## SMART PUFFING CONTROL

Soft puffing maximizes patient comfort.

The puffing is automatically regulated after the measurement if needed.

## Data transmission

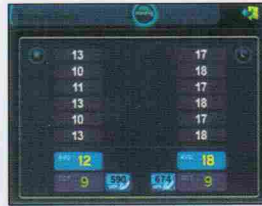

The measured data can be transmitted through the RS-232 port to PC

## Power saving function

Idle time can be set for automatic power saving mode.

## CORNEAL THICKNESS COMPENSATION

For more precise tonometry, corneal thickness values of patient can be inserted to get compensated and accurate data.

## 5.7" TOUCH COLOR TFT LCD

High-resolution touch LCD screen with 0 to 90 degree tilting function provides you easy and effective operation for any condition given.

## SAFETY STOPPER

A safety sensor is implemented to avoid any contact with the nozzle and patient eyes.

## SPECIFICATION

Type	Non contact type
Measurable range	0 to 60 mmHg
Measurement distance	11mm from the front of nozzle
Alignment mode	Full auto (T/L Shift Alignment, Focussing, Puffing) Semi auto (alignment, Focussing, Puffing) manual
Interface	RS232C
Power saving system	Available
Display	5.6" color TFT LCD (0.90°)
Printer	Thermal line Printer
Power supply	AC100-240V,50/Hz
Power consumption	80VA
Dimensions	Operating range Front/back :40mm Left / Right:90mm Up/Down :30mm
Weight	20.5kg (45.2lbs.)
Accessories	main unit 1 ea, Chin rest paper 1 pack Printing paper 1 roll, Power cable 1 ea Dust cover 1 ez, operation Manual 1 ea
