

TRIAL LENS SETS

Beta and "PN" Series

Accuracy and Elegance has been blended into all our Trial Lens Sets ! You now have a choice of Beta or "PN" Series.

BETA Series

Accurate 24.0 mm diameter lenses of Meniscus or Standard form are spun into color coded light weight sturdy aluminium rims of 38.0 mm overall diameter. All rims are engraved with the power in two places so that while the lenses are in the tray they can be easily identified. All sets are provided with both Plus and Minus Cylinders and all cylinder lenses have rims with handles for greater convenience. The diameter of lenses upto 6.0 D is 24 mm and thereafter 20.0 mm. A choice is also offered in the trays - real wood or moulded ABS with aluminium rims - the lens slots in both cases are inclined so that the power of the lenses in the tray can be easily read.

COMPOSITION

Spheres : 32 pairs each of Plus and Minus
0.12, 0.25, 0.50, 0.75, 1.0, 1.25, 1.50, 1.75, 2.00, 2.25, 2.50, 2.75, 3.00, 3.25, 3.50, 3.75, 4.00, 4.50, 5.00, 5.50, 6.00, 7.00, 8.00, 9.00, 10.00, 11.00, 12.00, 13.00, 14.00, 16.00, 18.00, 20.00
